In re: ACHWAN HORNG

IN DEPORTATION PROCEEDINGS

APPEAL

ON BEHALF OF RESPONDENT: David C. Buxbaum, Esq.
Suite 1612, 11 Broadway
New York, NY 10004

CHARGE:

Order: Sec. 241(a)(2), I&N Act (8 U.S.C. 1251
(a)(2)) - Nonimmigrant crewman -
remained longer

APPLICATION: Reopening

This is an appeal from a decision of an immigration judge, dated January 20, 1977, denying the respondent's motion to reopen. The Service opposes the motion as untimely. To avoid any question as to our jurisdiction, we will certify the entire record to ourselves under 8 C.F.R. 3.1(c). The appeal will be dismissed.

The procedural history of this deportation proceeding is complex. The respondent is a 26 year old native and citizen of China who entered the United States as a nonimmigrant crewman on August 27, 1975. An Order to Show Cause was issued to the respondent on February 25, 1976 and the immigration judge found him deportable as an overstayed nonimmigrant. In an order dated March 3, 1976, the immigration judge granted the respondent the privilege of voluntary departure until April 3, 1976. The respondent appears to have originally waived his right to appeal, but he subsequently obtained counsel and filed an appeal on March 12, 1976. Because the wrong form was used in counsel's Notice of Appeal (Form 290-B), the appeal was denied by the Regional Commissioner on the ground that he lacked jurisdiction. Furthermore, a request for a stay, submitted on April 3, 1976, was denied by us for lack of jurisdiction in an order dated May 3, 1976.

A-3

This application for stay, together with the earlier Notice of Appeal, was then treated by the immigration judge as a motion to reopen; and he denied the motion in an order dated January 20, 1977.

Once an appeal is filed, jurisdiction over the case rests with this Board, and any motions, thereafter, must be directed solely to us. Except where there has been a withdrawal of the appeal under 8 C.F.R. 3.4, when an appeal is taken, the Service must forward the record to this Board. 8 C.F.R. 3.5. It is for us to determine if an appeal is untimely and it was error for the Acting District Director, on April 7, 1976, to treat counsel's request as a motion to reopen. Nevertheless, our review of the record convinces us that no prejudice has been done to the respondent. The hearing was fair, deportability has been established by clear, convincing and unequivocal evidence and the respondent did receive the only relief for which he is eligible-- voluntary departure. Thus, although the record before us fails to contain a transcript of the original hearing before the immigration judge, there is no evidence of any lack of due process.

The respondent now appears to be requesting a stay of deportation in order to remain in the United States indefinitely because of a medical condition. However, only the District Director can authorize that kind of a stay and, further, the Service indicates that the respondent is no longer too sick to travel, as he would lead us to believe. Therefore, there is no basis for reopening these proceedings, and the appeal will be dismissed.

We note, that the respondent may have sought an extension of voluntary departure from the District Director. However, such a grant is within the District Director's sole discretion and neither the immigration judge nor this Board may review his decision. Matter of Wong, 13 I&N Dec. 258 (BIA 1969); 8 C.F.R. 244.2. Nevertheless, in view of the fact that the respondent does appear to have made a timely appeal from the initial decision of the immigration judge and he has not otherwise unduly delayed his departure, we will authorize a new grant of voluntary departure within such period of time and under such conditions, as the District Director deems appropriate.

ORDER: The appeal is dismissed.

FURTHER ORDER: The outstanding order of deportation is withdrawn and the respondent is permitted to depart from the United States voluntarily without expense to the Government, to any country of his choice, within such period of time, and under such conditions as the District Director shall direct.

A-4

A16 011 277

FURTHER ORDER: If the respondent does not depart from the United States in accordance with the foregoing opinion, the immigration judge's order of deportation will be reinstated and executed.

Acting Chairman

Since the patient is encountering

ADMITTING DIAGNOSIS: Gastrointestinal bleeding.

This 24-year old male came to the Emergency Room with a history of dizziness, headache and vomiting for the last two days. He has been having black tarry stools.

History of aspirin intake positive. The patient has had a known case of duodenal ulcer disease for the last ten years. The first bleeding he had was at the age of 15. At that time the patient had melanotic stools which was preceded by epigastric pain. There was no hematemesis however. At the time of initial examination in the Emergency Room BP was 100/50, R 28, P 82. Admitting hematocrit was 18.2. In total the patient was transfused about 4 units of whole blood. Gastroscoy revealed three ulcers, two in the pyloric antrum and one in the duodenum. GI series showed an active peptic ulcer crater on the anterior wall of the duodenal cap. The patient stopped bleeding. He was put on Maalox and milk. Hematocrit and vital signs remained stable.

Toward the early hour of the morning of 9-29-75 the patient disappeared from the floor and could not be traced.

DIAGNOSIS: Multiple peptic ulceration.

PROCEDURE
~~Operation~~ ENDOSCOPY

Description:

INDICATIONS: diag.

PROCEDURE: The patient was given no preparations in view of his tenuous situation. Tessalon and Cyclaine were used as topical anesthetic. The Olympus endoscope was utilized. The esophagus was entered. It was generally unremarkable except for some esophagitis at the distal esophagus consistent with his recent vomiting. He had some oozing of the gastroesophageal junction consistent with having a tube down there. In the proximal stomach there was some erosion probably also related to the tube. The stomach was generally unremarkable to the antrum was entered. There was considerable deformity of the antrum so it was difficult to tell exactly where the pylorus was, and where the antrum ended, and the duodenum began. In this area along the greater curve was an ulcer was noted, there was also a second ulcer on the posterior wall. The area beyond the bulb was then examined. There was a small ulcer in the medial wall of the first portion of the duodenum in the immediate postbulbar area. My endoscopic impression is most likely that this gentleman is bleeding from peptic ulcer disease. None of these ulcers looked very deep, I suspect that this gentleman will do reasonably well under medical management.

UPPER G.I. SERIES:

Following ingestion of a barium meal the esophagus appears normal. The stomach is normal in size and configuration, the rugal folds are of average size. There is some distortion of the duodenal cap with edematous mucosal folds, there is a small defect on the anterior wall of the duodenal cap which is consistent with an active ulcer crater. The duodenal sweep and proximal jejunum appear normal.

IMPRESSION: A small filling defect consistent with an active peptic ulcer crater is seen on the anterior wall of the duodenal cap.

CHEST:

A single PA view of the chest was obtained and shows normal diaphragmatic and cardiovascular and mediastinal shadows. The lungs are clear and fully expanded. The visualized bony and soft tissue structures are unremarkable. Residual barium is seen in the stomach and proximal small bowel.

Impression: Essentially negative chest.

Dear Sir:

MATTER OF
ACHWAN HORNG

- ☒ Attached is a copy of the written decision of the Immigration Judge. This decision is final unless an appeal is taken to the Board of Immigration Appeals by returning to this office on or before February 3, 1977 the enclosed copies of Form I-290A, Notice of Appeal, properly executed, together with a fee of ~~twenty-five dollars (\$25.00)~~ \$50.00. Dated: JAN 20 1977

Deportation Proceedings
against

ACHWAN HORNG

-Respondent-

IN BEHALF OF RESPONDENT

David C. Buxbaum, Esq.
111 Broadway
New York, N.Y. 10006

IN BEHALF OF SERVICE

John K. Speer, Esq.
Trial Attorney
New York, N.Y. 10007

ORDER

Respondent's moving papers evidence no compelling reason to reopen this case.

The respondent entered as a crewman and is, therefore, ineligible to adjust his status while in the United States. He does not meet the requirements for suspension of deportation under Section 244(a)(1). He accepted voluntary departure at his deportation hearing on March 3, 1976, at which his rights were fully protected.

Through some quirk in the administrative procedure, the motion dated April 29, 1976 reached this Judge this date. The respondent has already eked out 9 months beyond the date of April 3, 1976 when he was required to leave under a final order. (It should be noted the date June 3, 1976 contained in the moving papers is an error).

ORDER:

The motion to reopen is denied as to any and all relief prayed for therein.

Board of Immigration Appeals

Memorandum for the File

In re: A. CHWAN HORNG

File: A16 011 277

David Buxbaum called and stated that the immigration judge had ruled that he did not have jurisdiction of this matter because the matter was before the Board of Immigration Appeals, thus presumably honoring the notice of appeal which he claims to have filed. I told him in view of this, he would not need a stay of deportation, as the appeal is from the original order of deportation. I also told him I would check with the Service to make certain of the judge's order but it appeared that he needed nothing further at this point, and his client would not have to report tomorrow for deportation.

Board of Immigration Appeals

Memorandum for the File

In re: A. CHWAN HORNG

File: A16 011 277

On May 3, after the Board Conference regarding the above case, and our denial of the request for a stay, I discussed the matter again with counsel for the alien. He acknowledged that, so far as he knew, the motion had not been acted upon by the immigration judge. I suggested that he contact the judge to find out the status of the matter and also suggested that he may want to consider requesting a stay of deportation from the immigration judge. He said he would do so.

He also stated that he had been advised of the incorrect form used in his notice of appeal, and subsequently had filed a proper form, form I-290A. He stated this was filed, he thought, within the proper time. I told him that in view of the inconsistency in his statement and the statement of the Service, it would appear desirable to proceed first with the immigration judge, but if he was not successful with the immigration judge, to again contact the Board.

He thanked me and told me he would be in touch with us if need be.

IN DEPORTATION PROCEEDINGS

IN BEHALF OF RESPONDENT:

David C. Buxbaum
111 Broadway
New York, New York 10006

BRIEF IN OPPOSITION TO MOTION TO REOPEN

The respondent a native of China and citizen of the Republic of China on Taiwan, has moved by his counsel for a stay of deportation and for an order which would set aside the order of deportation.

The respondent last entered the United States on August 27, 1975, as a crewman authorized to remain in the United States for not more than 29 days. He was apprehended in employment by officers of the Service on February 24, 1976. At a deportation hearing held before an Immigration Judge on March 3, 1976, respondent was granted to April 3, 1976, by which time he was to leave the country voluntarily or be deported. At that hearing the respondent was informed by the Immigration Judge of his right to counsel and that his decision could be appealed. Respondent elected to proceed without an attorney and waived his right to appeal. Respondent failed to depart and a warrant of deportation was issued. Respondent is to surrender for deportation on May 6, 1976.

Counsel for respondent now claims that deportation should be stayed because his client requires medical care and that his client was not apprise of his rights. Counsel has submitted nothing to substantiate his client's need for medical care. His claim that his client was not made aware of his rights is presumptive in nature and based on his clients statements after the facts.

IN DEPORTATION PROCEEDINGS

APPEAL

ON BEHALF OF RESPONDENT: David Buxbaum, Esq.
Suite 510, 111 Broadway
New York, New York 10006

ON BEHALF OF I&N SERVICE: George Indelicato, Esq.
Appellate Trial Attorney

APPLICATION: Stay of deportation

Counsel for the respondent has applied telephonically for a stay of deportation pending action on the appeal from a denial of a motion to reopen. A stay of deportation was requested from the District Director. That request was denied. The Board will deny respondent's request for stay of deportation because it appears from the information furnished that this Board lacks jurisdiction. A stay of deportation in this matter should be requested from the Immigration Judge.

ORDER: The request for stay of deportation is denied.
